The Tag Monster

INSTRUCTIONS

1.

Cut body and legs from fabric (adding a 5mm seam allowance) and eyes from felt (no seam allowance).

2.

Sew tags on the body by looping ribbon, pinning and then sewing on. Embroider mouth, nose and eyes onto the body.

3.

Place leg fabric together print side in. Sew around the edges of the legs leaving the top open to stuff. Turn inside out and fill with stuffing (I use polyfibre).

4.

Place the back of the body tag/print side up. Place legs on top as shown. Place the front of the body tag/pattern side down on top of the legs.

5.

Pin the body/legs in place and sew around the outside of body leaving an opening for stuffing.

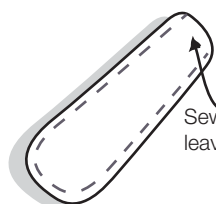

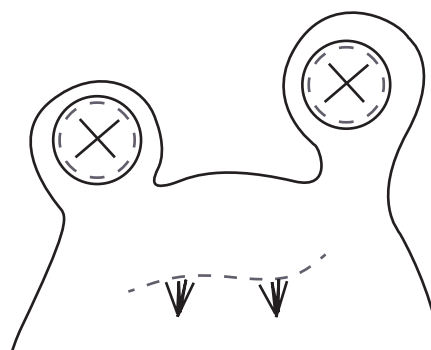

6.

Turn the whole thing inside out, pulling the legs through the opening and stuff the body.

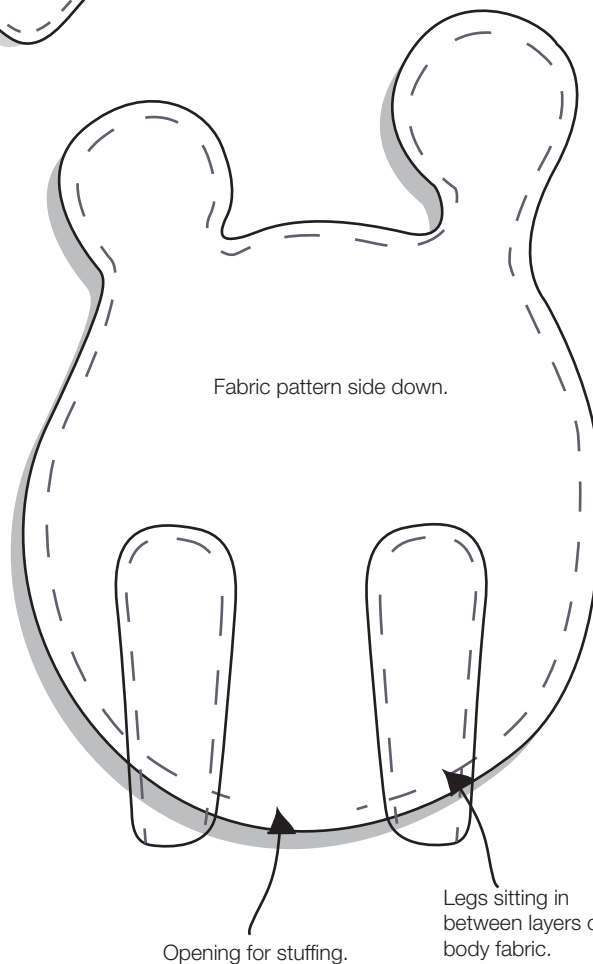

7.

Hand stitch the opening together.

Viola! The Tag Monster

Sew around the legs, leave an opening at the top.
